density and thermal expansion calculation of silicate ... - 246 physics and chemistry of glasses: european journal of glass science and technology part b volume 49 number 5 october 2008 the cte is the average slope of the $\Delta l/l_0 = f(t)$ or $\Delta v/v_0 = f(t)$ curve within the temperature interval Δt , whereby the linear expansivity α or the volumetric expansivity β is the first derivative of the $\Delta l/l_0$
