
Physikalische Zeitschrift 1908 Volume Full Year

space and time - minkowski institute - this volume includes hermann minkowski's three papers on relativity: the relativity principle, the fundamental equations for electromagnetic processes in moving bodies, and space and time. these papers have never been published together either in german or **space and time - vniims** - two chapters (the introduction and space and time) and the rst pages of the other two papers as chapters 3 and 4. through this free mini-ebook everyone interested in hermann minkowski's crucial contribution not only to fundamental physics but also to our deeper understanding of the world will be able to read his groundbreaking paper space and ... **minkowski, mathematicians, and the mathematical theory of ...** - (einstein studies, volume 7), pp. 45-86. ... course listing in physikalische zeitschrift 8 (1907): 712.

fragmentary notes by hermann mierendorff from this seminar show a discussion of lorentz's electrodynamics of moving media, see nieders"achsische staats- und univer- ... 10 in a letter of 18 october 1908, ...

cumulative bibliography and index of citations t o ... - cumulative bibliography and index of citations t o volumes 1-10 this bibliography lists all references by named authors that are cited in volumes 1-10 of the collected papers of albert einstein, as well as the pages in the individual volumes on which these publications are cited. excluded from this list are an y items that were not listed **revisiting einstein's mein weltbild - dash.harvard** - was a lecture on 9 december 1908 (and the printed version of 1909), titled "die einheit des physikalischen weltbildes." 6 he explained at length his own, favored conception of a developing weltbild of science that would be freed of every individual's mere "menschliche beobachtungen," such as those mach had put forward as a key notion. **quantum theory and the electromagnetic world-view** - quantum theory.

few, if any, of the substantial synthetic accounts of the history of the quantum theory discuss the electromagnetic world-view in detail. this asym-metry seems all the more surprising given the overlap in the cast of characters that worked in both areas. sommerfeld, lorentz, and wilhelm wien all participated at **encyclopedia abraham, max | encyclopedia** - abraham is best remembered for his two-volume textbook, *theorie der elektrizität*, which went through five editions during his lifetime. volume i, first published in 1904, was an adaptation of föppl's *einführung in die maxwellsche theorie der elektrizität*. volume ii, subtitled "der elektromagnetische theorie der strahlung" ("the ... **of for - dm5migu4zj3pboudfront** - the volume of the resultant solution is notmorethan0.1 cc. thedissolved activedeposit nacl solution is drawn up into a tuberculin syringe and is then ... schmidt, h. w., *physikalische zeitschrift*, 1908, ix, 184. ueber die akti-vierung der zentralen elektrode eines zylindrischen gefasze in radium
